NOTES: Article counts are from a selection of journals in S&E from Scopus. Articles are classified by their year of publication and are assigned to a region/country/economy on the basis of the institutional address(es) listed in the article. Articles are credited on a fractional-count basis (i.e., for articles from multiple countries/economies, each country/economy receives fractional credit on the basis of the proportion of its participating authors). The sum of the countries/economies may not add to the world total because of rounding. Some publications have incomplete addresses for coauthored publications. The unassigned publication count is the sum of fractional counts for publications that cannot be assigned to a country or economy.
